Subject: Groundwater analyte list for WLL CAG
List of WLL GW Analytes 050214.pdf

Hi Dan,

Attached is a list of ground water analytes and notes that we assembled for the West Lake Landfill CAG in response to the question of what is being looked for in the ground water that was asked during the CAG meeting. I told the person who asked the question that we would give the CAG a list of analytes for the ground water sampling. We used the Access database that you provided to make the list and notes. This is just a courtesy preview and we don't expect you to examine it for accuracy. However, your input is always welcome!

Thanks.

Terrie
